

INAM Annual Symposium

7 November 2022 - 9:00h

The INAM Annual Symposium is a multidisciplinary meeting with top rank keynote speakers and networking sessions with the members of the Institute of Advanced Materials and other visiting scientists.

keynote speakers

***Prof. Hermenegildo
García Gómez***

***Prof. María
Escudero Escribano***

***Prof. José Luis
Mascareñas Cid***

Program

9.00-9.30	Welcome and presentation
9.30 - 10.15	Prof. Hermenegildo García Gómez. Title: "Photocatalysis for the production of solar fuels. How far are we?" presented by Prof. David Brian Amabilino
10.15 - 11.00	Prof. María Escudero Escribano Title: Tailored electrocatalyst materials to produce renewable fuels presented by Dr. Pablo Pérez- Boix
11.00 - 11:30	Coffee break
11:30 - 12:15	Prof. José Luis Mascareñas Cid Title: "Translating transition metal catalysis to biological environments" presented by Dr. M. Jesús Vicent Docón
12:15 - 12:30	Presentation Dr. Miranda Vinay , editor for <u>Communications Engineering</u>
12:30 - 14:00	Poster session and visit to INAM facilities
14:00	Lunch at Agora Restaurant

Place

Salón de Actos de la Facultad de Ciencias de la Salud de la UJI

Organizing: Institute of Advanced Materials, INAM
